

REMASTER YOUR MAINTENANCE

WITH OTTO

INCREASE YOUR COST SAVINGS

Reduce costs by knowing the optimal time for maintenance. With OTTO.

REDUCE YOUR DOWNTIME

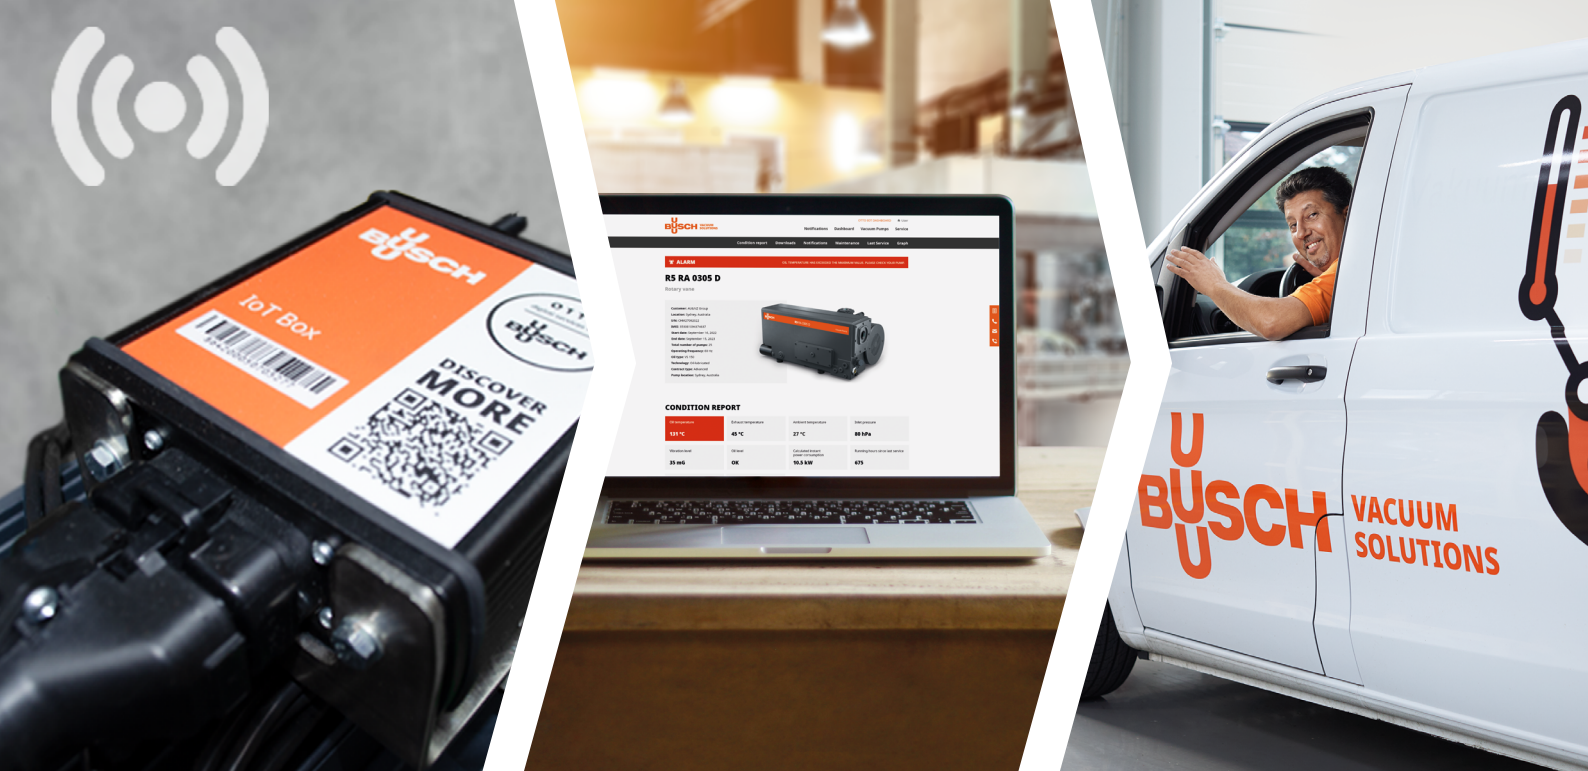

Unplanned downtime leads to production losses. Reduce it to a minimum. With OTTO.

OTTO - Digital Services is more than just a remote condition monitoring tool. Our IoT solution reports the status of your vacuum pumps 24/7 and provides key information for better production and purchase decisions. It sends you notifications if something is not going according to plan.

OTTO - your insurance for vacuum availability.

VACUUM SOLUTIONS

HOW DOES OTTO WORK?

- 1 Upgrade your service:
Contact us to get OTTO.
- 2 A Busch service technician installs
the OTTO IoT Kit.
- 3 Data is safely sent to the Busch cloud
for analysis.
- 4 OTTO IoT dashboard displays the condition
of your vacuum pumps 24/7. It showcases
an alert and sends you a notification if
something is not going according to plan.
- 5 Our service technicians are notified and
contact you to plan a service appointment.

OTTO comes in two different packages tailored
to your needs:

- **OTTO Standard**
The comfort solution
- **OTTO Advanced**
The all-inclusive solution
