

# About MULTIVAC UK

**MULTIVAC UK**, based in Swindon, was founded in 1984 and is a daughter company of **MULTIVAC** Group. Globally, Multivac is one of the leading equipment manufacturers for food, life science, healthcare and industrial items. The **MULTIVAC** portfolio covers the complete packaging solution; from up-stream portioning and processing equipment, to its well-known packaging technologies, automation solutions and end-of-line labelling and quality control systems.

**MULTIVAC UK** holds an accredited Local Innovation Centre status, which was awarded in September 2023. The newly renovated space gives customers the opportunity to trial products for NPD and hosts a temperature-controlled room, full line machine solutions and a supermarket area, to showcase the latest innovations on the market.

## Materials

As a supplier of all grades of films; from the most economical to the most advanced forming and lidding systems, **MULTIVAC's** bespoke film solutions are used extensively in MAP, Vacuum, Skin and other flexible packaging applications.

**MULTIVAC UK** has a team of experts, The Right Pack Consultancy, who can help you make the right decisions for your business and your customers. With legislation in mind making sustainable packaging an easy reality for your business.

## Technical Services

**MULTIVAC** has a dedicated technical sales team and over 60 regional service engineers across the UK, who deliver a fast, effective machine service as possible and support the materials department. All customers can also utilise our technical help desk to quickly diagnose and rectify a fault.
