# Who are we?

The PFM Group is a global leader in packaging technology and a leading manufacturer of high-quality packaging solutions, specializing in the design and production of innovative flowwrapping, vertical form-fill-seal, and horizontal pouch packaging machines.

Serving industries such as food, pharmaceuticals, and consumer goods, offering cutting-edge, reliable, and sustainable packaging systems tailored to our clients' needs. With a commitment to precision engineering and advanced technology, PFM is a trusted partner for businesses worldwide.

PFM UK was founded in 1987 to serve both the UK and Irish Republic from our Leeds headquarters with sales and service support for the PFM group range of equipment.
